

MID SEMESTER EXAMINATION GUIDELINES - JULY 2025

General Guidelines:

1. The mid examination will be a 1 hour practical exam.
2. It will be based on the ATmega328P microcontroller.
3. Therefore each group **must** bring the given equipment kit with all the working components to the examination hall.
4. Answers will be taken through a submission link on FEels.
5. No demonstrations as in the Labs!

Required to bring:

1. Laptop **per individual**.
2. Group Equipment kit
3. Usual stationary such as pencils, calculators, etc. are allowed.

Date and Venue:

1. Venue: Computing Centre (Lab 1 and Lab 3), Faculty of Engineering.
2. Date and Time: 02/07/2025 from 12pm to 3pm.
3. Later comers will not be given permission to attend the examination under any circumstances.

Supporting Material:

1. The below Supporting materials will be available to download from FEels at the time of the examination.
 - a. Arduino UNO - ATmega328P Pinout Diagram
 - b. ATmega328P Datasheet

Proceedings:

1. At 12pm, as per the group allocation, **Set A**(see group allocation pdf) must report to **Computer Center Lab 3** with the group equipment kit, laptop and sit in their respective space given to their group.
2. At 12pm, as per the group allocation, **Set B** (see group allocation pdf) must report to **Computer Center Lab 1** and wait there till the group members from **Set A** have finished the exam after which they will be transferred to Lab 3.
3. After **Set A** has finished the exam they **must** leave the equipment kit at the space given to their group and leave the Computer Centre.

Answer submission:

1. At the beginning of the examination a 10 minute window is given for examinees to download the answer template from FEels named **answer.c** which must be used to code your answer.
2. After downloading the template file and supporting material all examinees **must disconnect from the internet.**
3. The question will be provided on a physical paper.
4. Examinees may reconnect at the end of the exam (after 1 hour) when a 10 minute window is given to **upload the answer.c file** to a FEels submission.
5. Marking will be done based on the **submission answer file and drawn circuit diagram only.**

Restrictions:

1. You **may not** open any other window other than the coding editor or datasheet.
2. You **may not** refer to any other material other than the mentioned Supporting Material.
3. You **may not** use any mobile phones during the Examination.

Not adhering to the rules mentioned above will result in zero marks.
